Incentive training — No matter what you do, the DIs will find a reason to smoke you. Sometimes they don't even have a reason, but they'll smoke you anyway. Just suck it up and do as you're told. (^^;

Gas chamber — It feels like someone rubbed hot peppers on your face and down your nose and throat. You won't die, but it's definitely uncomfortable.

Pit = a large sandbox right outside the barracks where the whole platoon is IT'd.
